

# TAINÁ ROCHA

Brazilian researcher and data scientist focusing on the impacts of global changes (climate and land use and land cover changes). My interests and work are: **1.** Analysis of climate data and land use and land cover data in different scenarios/projections, **2.** Biodiversity data analysis, **3.** Predictive models **4.** Spatial analysis (GIS), **5.** Bioinformatics, R and Python programming language, Google Earth Engine etc.

**Note:** I use open-source tools and platforms. I am interested in good practices about open science (open databases, open software, etc.), good workflows, reproducibility and FAIR principles.

[Online version available here](#)

## EDUCATION

- 2017**  
|  
**2013**
  - **PhD in Zoology**  
Emílio Goeldi Museum  **MPEG, Brazil**
    - DISSERTATION: Phylogeographic of disjunct bird between Amazon and Atlantic Forest
- 2012**  
|  
**2010**
  - **MSc in Environmental biology**  
Federal University of Pará  **IECOS, Brazil**
    - THESIS: Phylogeographic analysis of *Xiphorhynchus guttatus* from Amazon and Atlantic Forest
- 2010**  
|  
**2006**
  - **Degree in biological science**  
Federal University of Pará  **UFPA, Brazil**

## RESEARCH EXPERIENCE

- Present**  
|  
**May-2022**
  - **Postdoctoral Researcher**  
[Brazilian Biodiversity Research Program \(PPBio\)](#)  **Brazil**
    - Impacts of global changes on Brazilian biodiversity and ecosystem services
    - Main task : Compilation of data generated by the program
- Present**  
|  
**Nov-2021**
  - **Lab Guest**  
[Biogeography / Statistical Models / Informatics lab](#)  **Remote, Florida-USA**
    - Research collaboration on biodiversity and global change. R package development for biodiversity data.

## SKILLS

Familiarity and daily use:

Familiarity and occasional use:

Basic knowledge and sporadic use:

Mar-  
2022  
|  
Aug-  
2021

- **Biodiversity Researcher and Consultant**  
**Brazilian National Centre for Flora Conservation** 📍 JBRJ, Brazil
  - [G https://www.iucn.org/commissions/species-survival-commission/resources/iucn-green-status-species](https://www.iucn.org/commissions/species-survival-commission/resources/iucn-green-status-species)  
Green Status of threatened species of the Brazilian Cerrado.  
The IUCN Green Status classifies species into nine Species Recovery Categories, indicating the extent to which species are depleted or recovered compared to their historical population levels. Each Green Status assessment measures the impact of past conservation on a species, a species' dependence on continuing support, how much a species stands to gain from conservation action within the next ten years, and the potential for it to recover over the next century.  
Here we used predictive models of species niche and potential distribution in scenarios of climate change and land use data of Mapbiomas (<https://mapbiomas.org/en>) to infer Species Recovery metrics.

Sep-  
2021  
|  
Jun-  
2021

- **Volunteer Researcher at United Nations Volunteers**  
**UN Online Volunteers** 📍 United Nations
  - Research Support for an Automated Analysis of Sustainable Development Goals  
[G https://www.osdg.ai/](https://www.osdg.ai/)

2021  
|  
2019

- **Postdoctoral Researcher at Botanical Garden of Rio de Janeiro**  
**Terrestrial Ecosystem Modeling** 📍 JBRJ, Brazil  
Supervisor: Marinez F Siqueira
  - Beta diversity (variation in species composition among locations) in Caatinga dry tropical forest using predictions of Generalized dissimilarity Models (GDM) and Baselga Metrics  
[🔗 https://github.com/Tai-Rocha/Caatinga\\_Dry\\_Forest.github.io](https://github.com/Tai-Rocha/Caatinga_Dry_Forest.github.io)
  - Climatic niche analysis of *Syzygiella rubricaulis* (Bryophytes)  
[🔗 https://github.com/Tai-Rocha/S\\_rubricaulis\\_bryophytes](https://github.com/Tai-Rocha/S_rubricaulis_bryophytes)
  - The first botanical explorations of bryophyte diversity in the Brazilian Amazon mountains: high species diversity, low endemism, and low similarity  
[🔗 https://github.com/Tai-Rocha/Bryophyte-Amazon-mountains](https://github.com/Tai-Rocha/Bryophyte-Amazon-mountains)
  - Predictive models of species niche and potential distribution with future projections of *Dimorphandra wilsonii* Rizzini (Fabaceae) presented to Green List in the three-year activity plan of the Brazilian Plant Red List Authority member of the Plant Conservation Committee between 2017-2020 and the Species Survival Commission of the International Union for Conservation of Nature (IUCN)

2015
- **High school teacher**  
Dinâmica Natural  Rio de Janeiro, Brazil
    - Science classes

## MENTORING EXPERIENCE

- 2019
- **Technical Advisor**  
Geographic Information System (GIS). Student: Tainá Cunha Udine Bernardino. Institution: Federal University of Rio de Janeiro, Brazil.  
  
Geographic Information System (GIS). Student: João Pedro Sousa Cerqueira Cruz. Institution: Federal University of Rio de Janeiro  RJ, Brazil

## SELECTED TALKS & SCIENTIFIC COMMUNICATION

- May  
2022
- **VI International Seminar on Statistics with R**  
[VI SER](#) ggee: an R package to use Google Earth Engine| Participation as a Speaker.  online
- 2020
- **Global land-use and land-cover data: historical, current and future scenarios**  
Final presentation in [OLS-2](#)|[Slides](#)  Online

I have a [website](#) to talk about science communication, provide tutorials and diverse content.

- 2020 ● Open tools and databases to analyze biodiversity in space and time  
Week curator at [Biodiversity in Focus](#) | [Webpage](#) for the content shared  
📍 Online
- 2019 ● Connecting data and experiences: Biodiversity, Information and Communication Technologies in Brazil  
[RNP 2019](#) | [Slides](#)  
📍 Brasília, Brazil

## SELECTED EVENTS

- 2021 ● V International Seminar on Statistics with R  
[V SER](#) event was recognized by the R Foundation (2018) for its pioneering in Latin America in bringing together an expressive number of R users| Participation as a listener.  
📍 Online
- 2019 ● Forum of Rede Nacional de Ensino e Pesquisa  
[RNP 2019](#). Challenges of digital transformation in teaching and research will lead debates at 2019 RNP Forum| Participation as Guest speaker.  
📍 Brasília, Brazil
- 2018 ● Workshop Evolutionary Rescue  
The [workshop](#) was organized by [José Alexandre Diniz-Filho](#) professor. The general concept of “evolutionary rescue” refers to the possibility of rapid Darwinian adaptation of populations under a strong effect of environmental stress. Specifically, in this workshop we discussed: 1) the concept of evolutionary rescue and the theoretical models in evolutionary genetics that have been used to study this process, and; 2) the integration of these theoretical models with ecological niche modelling techniques, in a context of climate change and anthropogenic changes in the landscape, 3) their implications for the conservation of diversity in the face of these changes, at different spatial scales. Analyses were implemented for some species of amphibians, such as model organisms, and the possibilities of expanding these analyses to a global scale were discussed, and several sub-projects to be carried out in the coming years on this topic were defined. 20h  
📍 Goiânia, Brazil

## COMPLEMENTARY TRAINING COURSES

- Nov 2021-Jan 2022

● **R for Data Science II**

🔗 This course aims to deepen the essential concepts of programming in R for Data Science. Advanced data manipulation techniques from real data analysis problems, including texts and dates, and functional programming concepts. 18 h

📍 Online
- Mar 2021

● **Flexdashboard: Interactive panels using R**

🔗 Analyze. Share. Reproduce. Your data tells a story. Use rmarkdown and Flexdashboard and transform your analysis into high-quality documents, reports, presentations and dashboards. 4 h

📍 Online
- Feb 2021

● **Managing tables with dplyr R package**

🔗 The main functions of dplyr for handling tables. 4 h

📍 Online
- Feb 2021

● **Regular expressions (regex) for data cleaning**

🔗 Regex as part of the data cleaning and transformation process using Tidyverse R packages. 4 h

📍 Online
- Aug 2020  
|  
Dec 2020

● **Open Life Science program**

OLS-2. Training for early stage researchers and young leaders interested in furthering their Open Science skills.

📍 Online
- Sep 2020

● **Writing academic manuscripts using rmarkdown**

🔗 This training provided the different steps and tools for writing academic manuscripts or technical reports in an automated and reproducible way using R and rmarkdown. 4 h

📍 Online
